

My title says Executive Director. Please, call me Sherry.

There's a door to my office here at The Crossings, but it's rarely closed.

This community's commitment to the wellbeing, health and happiness of our residents truly starts at the top.

It will never happen with my door closed.

My passion is helping residents get the most out of their Golden Years. Memory loss or assisted living needs do not define our residents.

There are challenges, certainly, but there is so much we do here to make their lives easier and more enjoyable. You can see it in their smiles.

“ This really doesn't feel like a job to me. Our residents are like family, and I love making sure everyone stays happy, healthy and entertained.”

I'd love to talk more with you and your family about the financial, lifestyle and supportive benefits to living at The Crossings.

Call or email me anytime. Or stop in. My door is open.

Sherry
